## PROFESSIONAL SUMMARY

Data Analyst with hands-on experience analyzing 50,000+ records using SQL, Python, Power BI, and Tableau. Skilled in data wrangling, Exploratory Data Analysis (EDA), ETL, dashboard development, and stakeholder reporting. Translate raw data into actionable data-driven decisions that support business intelligence and strategic planning.

## TECHNICAL SKILLS

**Programming Languages:** SQL, Python (NumPy, Pandas, Seaborn, Matplotlib)

**Visualization Tools:** Power BI(Power Query, DAX, ETL, KPI Tracking), Tableau, Advanced Excel(Pivot Table, Data Validation, Conditional Formatting)

**Database Systems:** MySQL, PostgreSQL

**Tools:** Visual Studio Code, MySQL Workbench 8.0 CE

**Core Competencies:** Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA), Data Modeling, Data Storytelling, Dashboard Development, Business Intelligence Reporting, Stakeholder Reporting, A/B Testing, Regression Analysis, Data Pipeline, Problem Solving

## PROJECTS

**Customer Shopping Behavior Analysis** | *Python (Pandas), SQL, Power BI, PostgreSQL* | [GitHub](#) 2025

- Analyzed 4,000+ customer transactions to identify spending patterns, customer segments, and product performance supporting data-driven decisions.
- Identified loyal, returning, and new customers; performed regression analysis on discount dependency and surfaced top-rated products.
- Built an interactive Power BI dashboard with dynamic filters to visualize revenue, customer behaviour, and category performance.
- Delivered business recommendations for improving subscriptions, loyalty programs, discount strategy, and targeted marketing.

**Pizza Sales Analysis** | *SQL, Tableau* | [GitHub](#) 2025

- Analyzed 50,000+ sales transactions to evaluate revenue trends, order patterns, and product performance across a data pipeline of 3 relational tables.
- Queried the database using JOINS, CTEs, and SUBQUERIES to extract actionable business intelligence insights—improving query performance by 30%.
- Delivered stakeholder reporting with insights supporting inventory planning, pricing strategy, and demand forecasting.

## CERTIFICATIONS

**Google Data Analytics Professional Certificate (GDAPC)** – Coursera [Link](#) 2025

**MS Excel Certification** – TestDome [Link](#) 2025

**SQL (Basic) Certificate** – HackerRank [Link](#) 2025

## EDUCATION

**Teerthanker Mahaveer Institute of Management and Technology, Moradabad** 07/2018 – 03/2021  
*Bachelor of Commerce (Honours)*

**Gandhi Nagar Public School, Moradabad** 2018  
*12th – CBSE*

**Gandhi Nagar Public School, Moradabad** 2016  
*10th – CBSE*
